

## AQUASTONE POOLS & LANDSCAPES

# RADIANT JEWEL

### SETTING A SHINING EXAMPLE

The owners of this Sydney property wanted a pool that would complement their new home. Working with a blank canvas, Aquastone Pools & Landscapes designed the pool to bring the 'wow' factor to not only the outdoor space, but the home too.

Undoubtedly the standout feature of the pool is the eye-catching water feature. Raised above the pool, the water feature sees water flowing from a stacked stone wall into a catchment below, which is equipped with water spouts. The catchment features a glass panel and colour-changing underwater lights, creating a spectacular feature in the evening.

Carefully considered placement allows the pool to be viewed from the home's main living space, creating a focal point that can be enjoyed regardless of whether the pool is in use.

The block had a severe slope, requiring extensive excavation prior to the construction of the pool. Aquastone Pools & Landscapes exploited the potential of the slope by using it to raise the water feature high above the pool, to stunning effect.

All of the materials used were chosen to complement the design of the new home. This included the selection of a white pebble interior finish and complementing stone-look porcelain tiles.

A Sunbather pool cover helps to keep the pool clean and healthy, while retaining the warmth from the gas heater.

Aquastone Pools & Landscapes was established in 1996 by brothers Scott and Gavin Bazley. As well as new projects like that pictured here, the company also completes award-winning renovations throughout Sydney. The team strives to deliver the very best quality outdoor living space for each and every client.

At Aquastone Pools & Landscapes, the person who sells you the pool is the person who will build your project. The team prides itself on going the extra mile to ensure your newly created outdoor living space is one that you will enjoy now and well into the future.
