

THE ULTIMATE ENTERTAINER

Practicality meets functionality in Sydney's Hills district

Positioned on a 700-800sqm block in Kellyville, in Sydney's Hills district, this modern rectangular pool is the ultimate in entertaining. It flows beautifully from the alfresco to become an extension of the entertaining area and also includes a 2m x 2m spa, perfect for entertaining all year round. The pool also features an extended deck with pergola within the pool area — ideal for relaxing while enjoying the outdoors. “The homeowner asked us for a pool that he could use for entertaining family and friends,” explains Gavin Bazley of Aquastone Pools and Landscapes. “He trusted us to develop a pool

design that would complement the new home and create the ultimate in outdoor entertaining. “A good design is something that meets a client's brief. As well as being great for entertaining, the pool had to be practical and functional. It met the client's brief by offering everything that was asked for — a beautiful pool that can be enjoyed all year round.” **BH**

Pool designed by Gavin Bazley from Aquastone Pools and Landscapes
Pool built by Aquastone Pools and Landscapes
